DOM RS Sigma DOM Sigma Plus

New

The cost-effective branded locking system with integrated trade benefits

SECURITY, QUALITY, DOM.

A system designed to impress

The new DOM RS Sigma and the customer profile DOM Sigma Plus have been designed to provide high quality and an optimum price/performance ratio as well as incorporating all the features that you would expect from a state of the art master key system.

As the successor to the RS 5 and the Rplus the RS Sigma and customer profile Sigma Plus offer a superior locking system at a competitive price.

For the same price the RS Sigma and Sigma Plus offer increased locking authorisations, more tumblers, more revision pins and a higher security classification than their predecessors. With all of these features combined we are confident in its sales potential.

The integrated copy protection through the trademark DOM branded profile ensures long-term business and reassures your customers that they have made the right choice.

For every requirement, whether individual solutions for the home or master key systems for office buildings the RS Sigma meets both cost and quality requirements effectively.

SECURIDEV

COST-EFFECTIVE SECURITY FOR YOUR CUSTOMERS

DOM RS Sigma

“We need a conventional master key system for an office building that is secure, cost-effective, and available“. For this contemporary request, DOM has developed the master key system RS Sigma.

RS Sigma is suitable for all types of master key systems (central lock/central systems, master key/general master key systems) and offers everything required from a secure locking system at a price that your customers will appreciate.

It is flexible, copy-proof, easy to use and offers everything that your customers require. In addition its extendibility and compatibility with existing DOM electronic systems ensures a secure long term investment.

THE SECURITY FEATURES

DOM Trademark profile ensures high level of copy protection

Protection against key copying
- ② **Key made of nickel silver**
Corrosion-free and low-wearing
- ③ **DOM branded profile**
Unlimited copy protection

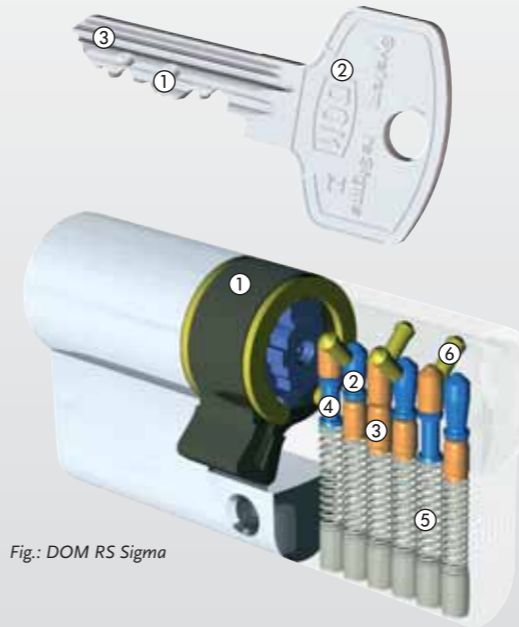

Fig.: DOM RS Sigma

- ① **Locking cam**
Opens the lock if the correct key is inserted
- ② **AB hardened bronze/steel core pin, hardened and chemically nickel-plated**
Protection against modern methods of manipulation
- ③ **Hardened bronze/steel pin tumblers**
High-quality materials increase the life cycle of the locking system
- ④ **FB hardened bronze/steel housing pin, hardened and chemically nickel-plated**
Improved anti drill and anti pick protection
- ⑤ **Springs**
Element in the pin tumblers designed to move the pins into the correct position
- ⑥ **Revision pins**
Control points for key authorisation

THE CUSTOMER PROFILE THAT YOU CAN RELY ON

DOM Sigma Plus

DOM Sigma Plus Selling a high-quality locking system to a price-sensitive customer is not always easy. With the Sigma Plus, we can now offer you the ideal, high quality solution for conventional applications. Impress your customers with the benefits of the new Sigma Plus. A superior and more secure system than its predecessor, it is comparable in its selling price and offers an interesting trade margin.

The DOM Sigma Plus can be recommended with the reassurance that no compromises have been made on quality or technology in its development. This system will impress your customers and ensure future business.

High level of security

Advantage: Security tested for peace of mind. Resistant to bump key technology and other modern methods of manipulation

High protection against key copying

Advantage: Copy protection gained from the DOM registered trademark key profile far exceeds that of existing patents.

Optimum anti snap and anti pull protection

Advantage: Protection against methods of unauthorised access. Using the latest technology your customers enjoy all the benefits without the compromise.

High flexibility

Advantage: Modular technology gives added security and on site flexibility.

Excellent price and performance

Advantage: A cost effective solution designed to meet all your customer requirements.

Long-term copy protection

Advantage: The trademark key profile ensures long term business that far exceeds existing patents.

Personalisation

Advantage: Personalised stamping on the key head leads to a high level of customer retention.

Low warehousing requirements

Advantage: Low capital commitment and low warehousing requirements. You decide whether to manufacture in house or let DOM assemble for you.

Suitable for master key systems

Advantage: Can be used for all types of master key systems. We offer the appropriate solution to meet your requirements Secure, fast and reliable.

Future-proof

Advantage: With the ClipTac, you can extend your master key system to incorporate electronic access control products at any time.
